MILITARY BASES

CORE COMPETENCIES

Preventive Medicine Manufacturing

- » FDA-compliant production of military-grade preventive medicine products with specialized formulations designed for extreme environmental conditions and extended field deployment scenarios.

Sunscreen Products (SPF 30-50)

- » Military-specification sunscreen formulations with enhanced sweat resistance, water resistance up to 80 minutes, and compatibility with military equipment and uniforms.

Insect Repellent & Antifungal Solutions

- » DEET-FREE based IR3535 effective against disease-carrying insects, plus anti-fungal treatments for tropical and high-humidity training and deployment environments.

Topical Pain Relief & Personal Care

- » Combat-ready pain relief formulations, skin protectants, and personal care products designed for field conditions with extended shelf life and temperature stability.

Supply Chain Management & Logistics

- » 100% USA made, significantly reducing any logistics nightmare, with inventory management, emergency response capabilities and rapid distribution to military bases within the 48 Continental States and Military Distribution Centers.

TECHNICAL EXCELLENCE

FDA-Compliant Manufacturing Facility

- » State-of-the-art 20,000 sq ft facility with controlled environment manufacturing, automated quality control systems, and full compliance with FDA regulations for over-the-counter drug manufacturing.

Advanced Quality Management Systems

- » Implementation of GMP (Good Manufacturing Practices), lot traceability systems, comprehensive testing protocols, and statistical process control for consistent product quality.

Custom Formulation Development

- » In-house R&D capabilities for developing specialized formulations based on military requirements, including environmental testing, stability studies, and dermatological safety testing.

Patented Packaging Technology

- » TSA-compliant packaging systems with extended shelf life, temperature resistance, and field-ready designs that maintain product integrity in extreme conditions.

Multi-SKU Production Capability

- » Flexible manufacturing systems capable of producing multiple product lines simultaneously with rapid changeover capabilities and scalable production volumes.

KEY DIFFERENTIATORS

100% Made in USA

- » Complete Buy American Act compliance with domestic supply chain, supporting American jobs and ensuring supply chain security for critical military applications.

24-Hour Fulfillment Capability

- » 98% same-day shipping rate with dedicated emergency response protocols, maintaining ready inventory for urgent military requirements and deployment needs.

Military-Grade Product Design

- » Products specifically engineered for military applications with enhanced durability, extended shelf life, and performance in extreme environmental conditions.

Direct Manufacturer Value

- » 35-55% cost savings through direct manufacturer pricing, eliminating middleman markups while maintaining superior product quality and service.

Specialized Preventive Hygiene Focus

- » Exclusive focus on preventive medicine and field hygiene products designed to protect warfighters from environmental and biological threats, supporting force readiness and health protection in austere deployment environments.

MANAGEMENT CAPABILITY

Proven Leadership Team

- » 14+ years of continuous government contracting experience with CEO Patricia Agudelo leading strategic operations and dedicated government sales team with deep military market understanding.

Contract Performance Management

- » Comprehensive contract management systems including performance tracking, compliance monitoring, and proactive communication with government customers to ensure mission success.

Scalable Operations Management

- » Flexible operational capacity to handle volume fluctuations from routine orders to emergency surge requirements, with established protocols for rapid scaling.

Risk Management & Mitigation

- » Comprehensive risk management programs including supply chain contingency planning, quality assurance protocols, and business continuity planning for uninterrupted service.

Government Compliance Expertise

- » Deep understanding of government regulations, reporting requirements, and compliance standards with dedicated compliance officer and established procedures.
